

ZINC RAY / GRAZER

SURFACE MOUNTED

Zinc is designed to contrast with the existing blocky linear floodlights and spotlights. Where developers are trying to hide fixtures using additional architectural details to reduce their visual impact, it is time to display a performance tool without being apologetic. Zinc offers a high performance outdoor fixture with pleasing aesthetics and unobtrusive form.

Zinc line leaves minimal physical impact while blending smoothly within its environment. In spite the compact design Zinc luminaires can host different optics to serve different lighting situations.

This product can be mounted vertically or horizontally and has a tilt adjustment up to 90°, allowing designers to illuminate horizontal, sloped, and vertical surfaces alike.

This system is available with fine mesh shield that secure glare control and conducive visual comfort.

Product Features:

- Homogeneous color mixing within one reflector
- Uniformity of 1:4
- IP 65
- Different optics serving different lighting application:
 - o Wall washer
 - o Wall grazer
 - o Flood light

IP65

Ik06

Luminaire

Application: Grazer

Body Material: Extruded aluminium

Installation

Operating Temperature: -10 to 50°C

Optics

Optic Type: UV stabilized TIR Lens

Surface Diffuser: No Diffuser

Electrical equipment

Mains Voltage: 220-240 VAC 50/60 Hz

Control Gear Efficacy: > 85%

Mounting Ratio
